

## **Aquatec Solutions Clinic at Oceanology International 2018**

Struggling to find an instrumentation or communication solution, or off-the-shelf product to meet a subsea problem or requirement? Stop by the Aquatec Solutions Clinic on stand J300 at Oceanology International in London, from 13<sup>th</sup> – 15<sup>th</sup> March.

Aquatec Group is hosting the Aquatec Solutions Clinic every day from 2pm to 4pm on their stand J300. The clinic is an opportunity to meet with Aquatec's in-house experts to discuss any subsea measurement or communication needs that require an innovative approach or where there is no off-the-shelf product. To pre-book a time, email [solutions-clinic@aquatecgroup.com](mailto:solutions-clinic@aquatecgroup.com) or alternatively drop in between 2pm and 4pm.

Aquatec has extensive experience in this area and has been providing instrument, communication and systems design services for over 20 years. Prior projects have included monitoring of cable motion, vibration, buoy presence, injected water quality and pipeline temperature.

### **About Aquatec**

The Aquatec Group are creators of innovative instruments, services and solutions for measurement, monitoring and communication underwater. They provide instrumentation solutions for all water environments, including offshore structures and pipelines; oceans, estuaries, rivers and lakes; and marine mammals and fisheries. Aquatec was founded by the current Managing Director in 1990 as a specialist consultancy in oceanographic instrumentation design. Since then, the company has established a diverse portfolio of products for measurement of physical oceanographic and process parameters including temperature, depth, vibration, attitude, suspended sediment and marine mammal activity, as well as underwater data communication systems and marine mammal deterrents.
